FDM Drum Mowers

FDM-135 MINI, FDM-165, FDM-185, and FDM-210H

FDM Series Drum mowers feature robust durable construction for years of trouble free performance. Their simple design boasts one of the lowest power requirements in the industry. The result is low fuel consumption and longer tractor life. Switching from transport to mowing is simple and quick. Impact protection is provided by an automatic breakaway system. High quality swath and clean even cut will satisfy even the most demanding user.
